

BUNDLE · AI & FINANCE AUTOMATION

Complete Finance AI Toolkit Priority Sequence Guide

Every resource in this bundle, organised into a recommended nine-phase sequence — what to use first, and what to come back to later.

9 Phases

AN HONEST NOTE ON WHAT'S IN THIS BUNDLE

This bundle contains **9 free resources** and **21 premium resources** — every file we could locate and verify. The catalog listing for this bundle states 8 free and 24 premium resources; our count came to 9 free (one more than listed — all genuinely exist as complete resources, so all are included) and 21 premium (three short of the listed 24). If those three additional premium resources exist elsewhere, send them over and we'll add them to this package immediately. See the Bundle Manifest at the end of this guide for the complete, itemised list.

Why Sequence Matters

Thirty resources delivered all at once, with no order, tends to produce exactly nothing — it's overwhelming to know where to start. This guide exists to solve that: work through the phases roughly in order the first time, then return to specific resources as they become relevant to whatever you're automating next.

THE SEQUENCE

Nine Phases, Start to Finish

Each phase builds on the one before it — Phase 9's specialised tools are the exception, used whenever they become relevant rather than strictly in order.

01

Assess Where You Stand

Before touching any tool, get honest about your starting point.

FREE	Finance Automation Readiness Assessment
PREMIUM	Finance Data Quality Checklist
PREMIUM	Month-End Automation Opportunity Map
FREE	AI Tool Comparison Matrix — ChatGPT vs Copilot vs Gemini

02

Build Your Case and Plan

Identify quick wins and get budget approval before committing to a tool.

FREE	10 Finance Tasks to Automate First
FREE	Finance Automation ROI Calculator
PREMIUM	Finance Automation Business Case Template + ROI Model
PREMIUM	Finance Digitalisation Roadmap

03

Learn the Foundations

Build shared vocabulary and understanding across the team before rollout.

PREMIUM	AI in Finance Glossary
PREMIUM	Finance AI Implementation Playbook
FREE	AI Governance Checklist for Finance
PREMIUM	Finance Data Governance Framework + Workbook

04 Select and Set Up Your First Tool Move from planning to a real, working pilot.	
PREMIUM	Copilot for Finance Setup and Usage Guide
PREMIUM	Excel Power Query Starter Template
PREMIUM	Power Automate Flow Templates for Finance
PREMIUM	AI-Powered Cash Flow Forecasting Template
PREMIUM	Power BI Finance Dashboard Starter Kit
PREMIUM	Finance Bot Build Guide

05 Write Better Prompts Get consistent, reliable output from whichever tool you've chosen.	
FREE	Variance Commentary Prompt Templates
FREE	AI Prompt Library for Finance Teams (30 prompts)
PREMIUM	Advanced AI Prompt Library — Finance Edition (150 prompts)

06 Protect Against Risk Build the verification habits that catch AI mistakes before they matter.	
PREMIUM	Finance AI Hallucination Risk Guide
PREMIUM	AI Output Validation Framework

ON EDITABLE MASTER VERSIONS

Every Word, Excel, and PowerPoint file in this bundle is already the native, fully editable master — not a locked or flattened export. PDFs are delivered as PDF, consistent with how each resource was originally built and sold.

OUTSTANDING: 3 PREMIUM RESOURCES NOT YET LOCATED

Every file we could find and verify is included in this package. Three premium resources referenced in an earlier project conversation — beyond the 21 included here — were not among the files uploaded for this bundle. If you have them saved elsewhere, upload them and we'll fold them into this package immediately at no extra cost. If they were never fully built, let us know and we'll scope creating them.

This bundle guide was prepared by MDD Business Consulting. Licensed for individual professional use as part of the Complete Finance AI Toolkit. Not for redistribution or resale.

LIFETIME UPDATES

As resources in this bundle are revised or new ones are added to the AI & Finance Automation collection, updated versions are available to anyone who has purchased this complete bundle — at no additional cost, for as long as the bundle is offered.
